

## Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## CLIMATE AND CROP BULLETIN.

Weather Bureau, Missouri Section For The Week Ending Last Monday.

The past week has been characterized by warm days and nights, a high percentage of sunshine, and a general deficiency in precipitation up to and including Saturday. Conditions have been generally favorable for growth of immature crops and for farm work.

The general condition of corn is satisfactory. In most of the northwest counties, however, high temperature and lack of moisture have caused late corn to "fire" on uplands, and some early corn to prematurely ripen. Telegraphic reports received from that section Monday morning indicate that the drouth conditions, if not entirely broken, were very much relieved by good rains during the day and night of the 13th. Early corn is practically made, while the late planted is doing well.

Threshing in stack made good progress in all districts, and is nearing completion in many localities. The yield and quality of wheat is quite up to expectations; rye is very good and oats are above the average. In some districts potatoes are very light, while in others the yield is fair; late potatoes are now promising. Haying continued under favorable conditions, but seed clover is generally inferior. Millet is very good, and cutting has begun. Sorghum, cowpeas, Kafir corn and all forage crops continue to do well. Pastures are dry and short in the northwest section, but are very good in all other districts; stock are generally in good condition. There is no improvement in the apple crop. With the exception of a few localities in scattered counties the crop is almost a total failure.

## Fiendish Suffering

Is often caused by sores, ulcers, cancers that eat away your skin. Wm. Bedell, of Flat Rock, Mich., says: "I have used Bucklen's Arnica Salve for ulcers sores and cancers. It is the best healing dressing I ever found." Soothes and heals cuts, burns and scalds. 25c at W. R. Barton's drug store; guaranteed.
